

Spring Classes 2010

Introduction to Acrylic Painting

Acrylic is a wonderfully versatile medium that can be used like oil paint, watercolor or both. In this class you'll learn the basics of handling the paint, working with value, mixing color, understanding light and shadow and designing a strong composition. You'll also experiment with fun special effects and creative self-expression. For a list of suggested supplies and to see examples of the instructor's work visit www.NancyRobertsStudio.com.

Chakra Exploration & Artistic Representation

Chakras are energy centers in the body that have been recognized, felt and artistically rendered for thousands of years. This seven-week course will study the seven chakras and how they affect our energy and physical parts of the body. One chakra will be studied each week. Each of the seven chakras has a specific name, color, location and element. Each is associated with a physical part of the body and specific energy influences.

This course will include a history of chakras and their imagery, what they represent in the body and what they do. The course will also include very light yoga poses specific to each chakra. The majority of the course will be spent on artistic representation of each chakra rendered in pastels. Previous art or yoga experience is not required. A list of materials will be given upon registration.
